

Kimball's Diptera Emerger

Hook: Dry fly, fine wire, #18-28

Thread: Dark Gray 8/0 or 12/0

Shuck: Teal Flank Feathers

Thorax: Black, Fine poly dubbing

Wing Case: White poly yarn

De barb and place your hook in the vice. Wrap the thread to just past mid hook and tie in shuck material. Tie poly yarn in at this point. Now dub your thread with the thorax material and build up the body. Bring the poly yarn up and over the thorax leaving it a bit loose and tie off. Trim the wing and cement.
